Task 1, a Flask tutor

This task is to create a web app with flask, following the [flask-mega-tutorial](#) first three chapters.

reference:

- innoSearch project: https://github.com/littlewey/yet-another-GSC-C-lighthouse
- ldif-compare: https://github.com/littlewey/ldif-compare

After class task:

- create a web tool, which could reuse the main function of Task 0.
